

- 1 Test a Motor
- 2 Select “Fantom-Assign to Label” and choose the test result you prefer to assign.

- 3 Select the Model, and write the PN. and click “Assign.”

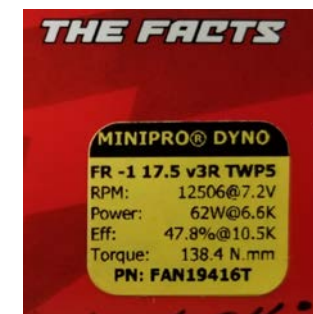

- 4 Save the Sheet

- 5 Select “Fantom-Print Labels” to Print the latest labels. You must mark manually each labels as printed.

To mark the labels as printed, you simple go to “Fantom-View Labels” and select “Printed” to all the applicable labels; and click “Save Sheet” after you finish.

- 1 Open File “Fantom Database” in your desktop. (You need MS Access)
- 2 Locate “tblModel” and Add your model numbers. A ModelID will automatically be generated.
